TOWN OF CENTER HARBOR

Report State Tax Commissioner, 1914

Increase in Public Expenditures

No power has constituted the members of the tax commission guardians of the public in respect to expenditures for the support of the government, and they have no disposition to assume that role. Nevertheless, "economy being a most essential virtue in all states," and it being "the duty of the legislature and magistrates * * * to countenance and inculcate the principles of * * * economy," all as set forth in the constitution of this state, the commissioners believe themselves to be amply justified in urging, as they have so often urged before, the importance of this subject upon the voters of the state. The public revenue, state and municipal, is the voters' business and they are responsible, directly or indirectly, for every extravagance affecting it from the inception to the termination of the fund.

Every compulsory contribution levied by public authority upon people or property is in the broad sense of the term a tax, nor is it made less obnoxious or burdensome if called a fee or a fine. In the figures that follow therefore, all fees, fines, and other exactions, if any, are included with the taxes upon poll and estates. To illustrate the comparative importance of the two classes, it may be said that the taxes upon polls and estates represent about

TOWN OF CENTER HARBOR

95 per cent. and all other income about 5 percent of the total revenue of the state, and of the counties, cities, towns, districts and precincts therein.

Taxes as defined above have increased by leaps and bounds in recent years. In 1903 the sum of all the taxes assessed by and within the state of New Hampshire was \$5,373,420.22; in 1913 it was \$8,765,039.07, an increase of \$3,391,618 85, or 63 per cent., in ten years. But these figures do not adequately represent the velocity the upward movement has now attained. To show that it is necessary to divide the ten-year period: The levy in 1908 was \$924,388 79, or 17 per cent. greater than in 1903, while that in 1913 was \$2,467,230.06, or 39 per cent. greater than in 1908. By so much did the advance in the last half of said period exceed that in the first half. These figures will be the more alarming if it is remembered that while taxes already sufficiently heavy were advancing 63 per cent., the population of the state increased only about $4\frac{1}{2}$ per cent., and while one was advancing 39 per cent., the other increased only about $2\frac{1}{4}$ per cent.

It is instructive to study the subject from another angle. In the ten years from 1904 to 1914, both inclusive, the annual increase in all taxes defined and limited as above was as follows:

1904.....	\$34,459.91
1905.....	286,590.14
1906.....	115,468.39
1907.....	411,257.46
1908.. . . .	76,612 89

TOWN OF CENTER HARBOR

1909.....	\$539,995.97
1910.....	787,565.31
1911.....	215,848.50
1912.....	296,216.85
1913.....	627,603.43

The average yearly increase for the whole period was \$336,561.85. The upward trend is more plainly shown, however, by dividing as before, the ten-year period in the middle and considering the halves separately. For the first five years the average annual increase was \$184,877.76; for the last five years it was \$493,446.01. It is surely pertinent to consider how long the little state of New Hampshire, almost stationary in wealth, can sustain a tax already burdensome and increasing at the rate of practically half a million dollars a year without crippling her industries impoverishing her people. Plainly it is a condition not calculated to attract capital from without the state or to encourage business within the same.

For the per capita standpoint the situation is not less disturbing. In 1903 there were assessed \$12.88 in taxes for each man, woman and child in the state. Five years later there were assessed \$14.75 for each individual, and in five years more \$20.09. If in 1913 taxes had been equally distributed among all the people it would have meant a burden of \$100 for each family of five members. Though in reality there was little such equality in the assessment there was much in the payment. The fact is that those who occupy, use or consume property, no matter who owns it, are those who in the last analysis pay most, if not all, of

TOWN OF CENTER HARBOR

the taxes thereon. If the wage earner or the man of limited means understood he was in reality paying something like \$100 a year in state and municipal and half as much more in federal taxes for the government of himself, his and three children his influence and his vote would more frequently make for economy in appropriations and expenditures than heretofore.

No statistics for the year 1914 appear in the above paragraphs for the reason that they are not at hand except in part.

At two o'clock on May 29 memorial exercises were held at Lamprey's hall after the comrades, school children, grange and town people had been escorted to the village cemetery by the Center Harbor band where decoration services were held. A program of music, readings and exercises by Garnet Hill grange and pupils of the Center Harbor and Moultonboro schools was rendered, after which Rev. H. R. Hill delivered the oration in which he made a strong plea for universal peace.

At the close of the services the graves in Senter yard were decorated

In closing the committee would strongly recommend some action by the town regarding the placing of suitable markers as many of the graves have neither markers of memorials making it difficult to place their location.

TOWN OF CENTER HARBOR

REPORT OF SCHOOL BOARD

In writing the report of the school year, your School Board realize their position, and know full well that many criticisms have been hurled at them, by those that the register show, have not even visited the school through the entire year, yet have made more or less talk about the way the schools have been managed.

To such we say visit the schools early and often and try and build up rather than tear down our institutions.

The teachers, children and School Board need your help and encouragement rather than your discouragement.

All the schools in town have been run 30 weeks except the Hawkins School which, owing to circumstances had to be closed four weeks short.

All of the teachers have worked hard to run good schools and we feel they have met with a good degree of success.

A matter of MUCH importance lies with the parents: that is attendance; our registers look badly, and we hope that the parents will see that their children attend more regularly

The Board recommend that the Selectmen raise the taxation three hundred dollars for outside tuition, one hundred dollars for supplies, five dollars for flags, etc. and one hundred dollars for State Supervision in case compulsory supervision law passes.
